

Wednesday, July 21, 2010

NOTE: Program times are listed each day; however, please check specific listing for exact start time as some workshops have varied start-stop times.

8:00 AM

Engineering and Technology Breakfast and Featured Speaker

Wednesday, July 21 Suite Tower
8:00 AM - 12:00 PM Jones

*Engineering & Technology
Middle School, Secondary, Postsecondary*

Presenter(s): Dianne Leveridge, Metty Joseph
This breakfast is a celebration of the teachers and teacher educators of our profession. The featured speakers: Dianne Leveridge, PLTW Affiliate Director and Metty Joseph, Affiliate Assistant, are both engineers working with PLTW at the University of Kentucky. They will present Fischertechniks Fun; a hands-on, interactive, group electromechanical activity building and running simple machines. Fishertechniks are fun, and the software is intuitive and easy to use. Experience the fun the middle and high school PLTW students experience. Following the presentation, round table discussions will allow Kentucky educators to brain-storm classroom strategies. Door prizes will be awarded.

263

Area Technology Center Principals Meeting

Wednesday, July 21 Suite Tower
8:00 AM - 5:00 PM French

*ATC Principals

Wednesday, July 21 Suite Tower
8:00 - 10:00 AM Brown

*Business, Marketing
Secondary, Postsecondary*

Presenter(s): Glenda Phillips
This laptop session will discuss the basics of working with the new look of Word 2007. A working knowledge of the tabs and ribbon, differences in the defaults, and the impact on document formatting as well as efficiency in producing documents will be experienced as practice exercises are completed.

113

Teaching Agriscience Career Pathways

Wednesday, July 21 Rivue Tower
8:00 - 8:50 AM Dogwood

Agriculture

Secondary

Exhibitor Presentation

Presenter(s): Frank Cercone III, Kristy Jury
Please join this session to discover how the Agriscience Pathways program introduces students to vocations in the agricultural field. Using self-directed methods for teaching career pathways at the secondary level, attendees learn how the program guides students through their chosen career paths and provides instructors with the appropriate tools to monitor student progress and facilitate success. Completing hands-on activities allows participants to discover how this program is aligned with the state and national NSTA and NCTM standards, and helps prepare students for FFA events. Mrs. Kristy Jury, Agricultural Sciences instructor at Gallatin High School, will facilitate this session and describe how she has utilized the Agriscience Pathways approach in her program.

130

Trends In Agriscience

Wednesday, July 21 Rivue Tower
8:00 - 8:50 AM Holly

Agriculture

Secondary

Exhibitor Presentation

Presenter(s): Erin Brennan
Erin Brennan, Delmar, Cengage Learning Agriculture Marketing Manager, will lead a discussion covering the latest in Agriculture technology to accompany text materials and facilitate classroom discussion. Erin will also identify significant features with regard to bid materials and how those features align with trends in industry.

132

Work-Based Learning: Challenges for Today and Tomorrow

Wednesday, July 21 Suite Tower
8:00 - 8:50 AM Laffoon

Pathway to Careers/Special Programs

Secondary

Presenter(s): Sheila Clemons, Teresa Rogers, Daniel Grider, Linda Collins; Moderator, Donnalie Stratton

Facilitator: Chris Holotein

A panel of teachers will examine issues facing schools, students, parents and business/industry personnel in the implementation of work-based learning experiences relating to cooperative education, work experience and practicum in our schools. Consideration will be given to student placements when dealing with a struggling economy, the role social and personal issues have on work experiences, getting and keeping jobs. These issues with suggested strategies will be discussed by teachers who are currently involved in work-based learning throughout the state.

178

300

Tools to Create a Web Enhanced Classroom, Laptop Session

Wednesday, July 20 Suite Tower
8:30 - 10:00 AM Beckam
Business, Marketing
Secondary

Presenter(s): Damian Laymon
Looking for a way to be more efficient in the classroom, accomplishing more while working less? Do you struggle with students working at varying paces, only to find that your advanced students finish in half the time and are left with nothing to do? Given the technology tools that teachers have at their disposal, creating a Web based, or Web enhanced classroom has never been easier. Learn methods to deliver content online, using multimedia, streaming video, and dynamic delivery techniques that allow students to work more independently, while freeing you up to interact on a more personal basis with your students. These techniques are especially beneficial to exceptional children.
203

9:00 AM

Grant Writing

Wednesday, July 21 Suite Tower
9:00 - 10:30 AM Morrow
Pathway to Careers/Special Programs
Middle School, Secondary, Postsecondary
